Use of all inflatable equipment, such as the Jumping Castle (5 in 1 combination may include slide, obstacle course, tunnel, etc), involves certain elements of risk. Slips, falls, and collisions may occur while participating in activities on this equipment, causing injury. The following list includes, but is not limited to, examples of the types of injury which may result:

1. Concussion 2. Muscle Sprains/Strains; 3. Fractures; 4. Dental Injuries; 5. Head/Neck/Back Injuries

The risk of sustaining these types of injuries results from the nature of the activity and can occur without any fault of either the student, or the school board, its employees/agents, or the facility where the activity is taking place. It is not recommended to use the inflatable equipment if you have any pre-existing injuries. By choosing to take part in this activity, you are accepting the risk that you/your child may be injured.

The chance of an injury occurring can be reduced by carefully following instructions at all times while engaged in the activity.
